

第38回パリ大会採択論文

*責任著者

	No.	TITLE
1	115 11A	Recent Development Progress of 70MW Class Superconducting Generator - World's highest output, longest continuous operation of 1500 hours & first connection to 77kV power grid- AGETA T., SHIBUYA M., TANIGUCHI H., SHIOBARA R., SUZUKI K., MIYAIKE K. (Japan)
2	122 11B	On-line Condition Monitoring of Winding Insulation System in Turbine Generators KIMURA K., KANEDA Y., ITO K., KOGI T., MOROOKA K., TAKASHIMA M. (Japan)
3	124 13A	Current State and Future Plans of Fault Current Limiting Technology in Japan FUKAGAWA H., MATSUMURA T., OHKUMA T., SUGIMOTO S., GENJI T., UEZONO H. (Japan)
4	116 13B	Field Test of 1000kV Gas Insulated Switchgear YAMAGATA Y., NAKADA Y., MURAYAMA Y., HIRASAWA K., YOSHIKUMI T. (Japan)
5	117 14	Development and Field Test of a Multi-Terminal DC Link Using Voltage Sourced Converters and New Control and Protection Schemes HAYASHI T., SEKI N., SAMPEI M., SEKINE Y. (Japan)
6	125 15A	Dielectric Characteristics of Interfaces in Prefabricated Joints of Extra-high Voltage XLPE Cables TANAKA T., NAGAO M., TAKAHASHI Y., MIYAZAKI A., OKADA M., YAMASHITA Y. (Japan)
7	126 15B	Interfacial Insulation Characteristics in Gas Mixtures as Alternative to SF6 and Application to Power Equipment TAKUMA T., YASHIMA M., ENDO F., HAMA H., MATSUMOTO S. (Japan)
8	118 21A	Construction of the World's First Long-Distance 500kV XLPE Cable Line OHNO H., SAKUMA S., FUKUNAGA S., OSOZAWA K., YAMANOUCHI H. (Japan)
9	127 21B	Installation of 500 kV DC Submarine Cable in Japan NAKANISHI Y., FUJII K., NAKAYAMA K., GOTO Y., MIZUTANI K., MIYAZAKI T. (Japan)
10	129 22B	Reduction of Maintenance Cost for Overheated Compression type Clamps through Newly Developed Countermeasure and Improved Control Method NAKAMURA K., HASE Y., YOKOTA Y., NISHIDA E. (Japan)
11	119 23/39	The Multifunctional Substation based on the Novel Asset Management (Application of newly developed battery) FUSHIMI Y., TOKUDA N., ISOZAKI T., HARA T. (Japan)
12	131 23B	Evaluation of Total Life Cycle Cost of GIS Substation and Development of Portable Diagnosis Device SHIMATO T., YONEZAWA H., NAKAJIMA T., IBUKI K., YAMAGIWA T. (Japan)

	No.	TITLE
13	132 33A	Application Study of Semiconducting Glaze Hollow Insulators to Substation Equipment CHIYAJOU K., KAWAKITA K., SUGIYAMA T., KISHIDA R., SUZUKI Y., IMAKOMA T. (Japan)
14	133 33B	Principles and Recent Practices of Insulation Coordination in Japan KAWAMURA T., KOUNO T., SASAKI S., ZAIMA E., UEDA T., KATO Y. (Japan)
15	120 34A	Present State and Trend of Application of Communication Including LAN to Protection and Substation Control AGEMATSU S., HAYASHI M., IKEHARA S., MATSUSHIMA T., FURUSE M., TSUJIKURA Y. (Japan)
16	135 34/35	Application of Broadband Telecommunications and Time Transfer Systems for Teleprotection SERIZAWA Y., OBATA Y., TAKEUCHI A., IWATANI F., IBARAGI E., MATSUSHIMA T. (Japan)
17	136 35	Development of Built-in OPGW and Winding OPGW and Applications at Power Utilities in Japan YAMADA Y., TANIDO M., HAYASHI K., IKEO S., YOSHIDA S., SHIMOI K. (Japan)
18	121 39	Operation Support System for Trunk Power Transmission Network based on Optimization Techniques OBATA Y., YAMASHITA K., NAKAMURA S., ITAYA N. (Japan)
